UX/UI Designer based in Berlin with paid client experience in operational product flows and service websites. I work across research, interaction design, high-fidelity UI, validation, and responsive implementation in React and Vite.

PROFESSIONAL EXPERIENCE

UX/UI Designer: Delivery workflow Paid freelance client project · Vulpes Studio 2025

Redesign of a delivery confirmation flow for a small freight company in Barbacena, Brazil.

- Conducted field research with 5 couriers and piloted the redesigned confirmation flow with 12 drivers over three weeks.
- Reduced task time by approximately 7 to 8 seconds per stop and increased record compliance from 92% to 98%. Pilot data supported a projected 30 to 40% reduction in proof-of-delivery disputes.

UX/UI and Web Designer: Dr. Hélio Paid freelance client project 2024

Research, information architecture, visual identity, responsive UI, and website delivery for a plastic surgeon.

- Used patient interviews and recurring social-media questions to define the information architecture, content hierarchy, and responsive interface.
- Created the visual identity and delivered the website for independent client updates; the identity remains in use.

SELECTED EDUCATIONAL PROJECT

DuoPet Course project 2023

Concept for veterinary appointment booking developed during UX training.

- Surveyed 164 pet owners, conducted 5 follow-up interviews, and completed two small-sample usability-testing rounds.

SKILLS

UX Design

Product discovery, qualitative and quantitative research, usability testing, interaction design, prototyping, mobile UX, design systems.

Tools

Figma, FigJam, React/Vite, HTML/CSS, Tailwind, Cursor, Notion, Linear.

Technical prototyping

From Figma to responsive React prototypes used to explore and validate faster.

Languages

Portuguese (native), English (fluent), German (B1 certified; B2 professional course in progress).

EDUCATION

Front-end Development and AI Weiterbildung

WBS Coding School, Berlin 2026 to present
Current phase: three-month professional German B2 course. The front-end and AI technical curriculum begins afterward and has not started yet.

Google UX Design Certificate

Professional Certificate, Coursera 2025

B.Sc. Biological Sciences

Federal Institute of Southeast Minas Gerais 2019

Technical University of Munich

Academic exchange 2014 to 2016
