matthias.k.schae fle@gmail.com

Berlin, Germany

www.matthiasks.com

UX/UI Designer with a research-led approach and hands-on delivery from discovery to implementation. My background in Biological Sciences shapes how I frame problems, test assumptions, and work with evidence. I combine field research, interaction design, high-fidelity UI, design systems, and technical prototyping in React/Vite. German-Brazilian citizen based in Berlin, available immediately.

PROFESSIONAL EXPERIENCE

UX/UI Designer, Vulpes Studio

Freelance Aug. 2024 – Present

Freelance product design practice covering the full product lifecycle.

- Redesigned a courier delivery confirmation flow after field research with 5 couriers, piloted with 12 drivers over 3 weeks. Measured results: around 8 seconds faster per stop and record compliance up from 92% to 98%. Proof-of-delivery disputes are projected to fall 30 to 40% based on the pilot data.
- Co-led DuoPet, a conceptual veterinary booking app, using a survey with 164 pet owners, personas, prototyping, and usability testing. The prototype reduced scheduling time by 15.9% against benchmark apps.
- Designed and shipped websites for small businesses from Figma to React/Vite, maintaining responsive behavior, accessibility, and brand consistency.

SKILLS

UX Design

Product discovery, qualitative and quantitative research, usability testing, interaction design, prototyping, mobile UX, design systems.

Tools

Figma, FigJam, React/Vite, HTML/CSS, Tailwind, Codex, Cursor, Claude, Notion, Linear.

Technical prototyping

From Figma to responsive React prototypes. AI-assisted workflows used to explore and validate faster.

Languages

Portuguese (native), English (fluent), German (B1, B2 professional course in progress).

EDUCATION

AI Software Development

WBS Coding School, Berlin 2026 – present
Berufssprachkurs B2 followed by the coding curriculum.

Google UX Design Certificate

Professional Certificate, Coursera 2025

B.Sc. Biological Sciences

Federal Institute of Southeast Minas Gerais 2019

Technical University of Munich

Academic exchange 2014 – 2016
